Legacy sitelinks in AdWords

The screenshot shows the Google AdWords Campaign Management interface. The main content area displays 'All online campaigns' with a filter for 'Sitelinks Extensions' set to 'Not upgraded'. A yellow notification box is overlaid on the table, stating 'Upgrade your sitelink extensions' and providing instructions: 'Create extensions for ad groups or campaigns', 'Set schedules and device preferences', and 'Retain performance history across edits'. Below the notification is a table of ad extensions.
